

PI:

Project Name:

Project Number or Budget / Fund #:

Existing DMSAM Project Name (if applicable):

Existing DMSAM Plan Name (if applicable):

Material:

Is there powder available for this project?

Do you have details for the powder?

If new powder, has it been ordered?

Is a refurbished substrate acceptable?

Are we using standard processing parameters?

If not, can you provide the details for the parameters?

Design:

Are there designs available for what you want to build?

If so, what format, and can you provide them?

If not, can you provide the concepts for what you want to build?

Build:

Any special instructions for the build?

Do powder samples need to be taken?

Any sensor requirements during the build?

Post Processing (please provide detailed explanation or services needed and suppliers)

- Stress Relief:
- Heat Treatment
- CT Scanning
- Removal from plate – via EDM or other
- Surface Finishing
- Metallography
- Other Testing
